Focuses on team collaboration and achieving results, adaptable to changing needs. Well-versed in database management and API integration with reliable and flexible approach.

SKILLS

- Java development
- React JS
- SQL
- Git
- Laravel Framework
- Software development

- Spring Boot
- API integration
- MySQL
- PHP
- Unit testing
- Object-oriented programming

WORK HISTORY

LIFE CORE DEVELOPER 09/2024 to Current
Allianz Technology, Kuala Lumpur, Malaysia

- **System Design & Development**: Develop and maintain core life insurance systems using PL/SQL, Oracle Forms, and Oracle Reports Builder, supporting Allianz Life Insurance digital transformation efforts.
- **Project Collaboration**: Collaborate with cross-functional teams, including business analysts and stakeholders, to deliver scalable solutions that enhance operational efficiency and customer experience.
- **Application Support (L3)**: Serve as Level 3 support for application-related incidents, performing in-depth analysis, root cause identification, and resolution of complex issues escalated by Level 1 and 2 support.
- **Incident & Ad Hoc Handling**: Respond to and resolve critical application incidents and ad hoc user requests, ensuring minimal disruption to business operations and compliance with SLAs.
- **Performance Optimization**: Conduct bug fixes, performance tuning, and enhancements to ensure system reliability, stability, and responsiveness.
- **Data Management & Security**: Enforce best practices in data integrity, access control, and regulatory compliance to safeguard sensitive information.
- **Documentation & Testing**: Prepare technical documentation and business requirement specs in line with Allianz Life Insurance SDLC standards. Develop test plans, conduct unit and modular testing, and facilitate UAT and sign-off processes.

JAVA DEVELOPER 03/2023 to 08/2024
Beyondsoft (Malaysia) Sdn. Bhd., Kuala Lumpur

- Developed Java-based REST APIs that enabled integration with AIA Digital+ in-house services of Optical Character Recognition (OCR) engine, resulting in an increase in customer retention.
